

When we initially decided to take the plunge and remodel our home it began as a very small partial remodel of a studio. By the time we actually got around to building, this very small remodel had become a rebuild of the entire property!

As soon as we met Roy he struck us as an honest and dedicated person committed to his job and his Company and this impression was borne out.

Throughout our year long build, all of RT Abbott worked as hard and as efficiently as they could to complete the job on time and on budget. We appreciated the level of communication with everyone and the daily and weekly reports. The quality of the sub-contractors was excellent and the resulting house is absolutely beautiful.

Like all projects, there were some unexpected hurdles but they were always dealt with in a professional and fair manner.

We will absolutely use RT Abbott for any projects we have in the future and would and do recommend them to anyone who asks for a stellar contractor!
