To Whom It May Concern

R.T. Abbott Construction has just completed a remodeling project for our residence in Venice, CA. The work included carpentry, updating of an old rusted air conditioning system, installation of new lighting, repainting and other upgrades.

In all respects, we were very pleased with the supervision by Michael Duff and the quality of work by all the subcontractors. Michael Duff was enormously attentive, and always available by email. He and Roy Abbott, the owner of the firm, personally introduced us to all the subcontractors and Mr. Duff was on site when all the work was done.

We recommend them highly.

Sincerely,
